

**REMARKS**

Claims 1-18 are pending, and claims 9, 10, and 15 have been amended, and claims cancel claims 1-8, and 14 have been canceled. Claims 9-13 and 15-18 remain pending.

The Specification has been amended to add missing serial numbers, as requested by the Examiner. The Examiner object to the Title of the Invention. The Title of the application is "Method and System for Controlling User Interaction In A Digital Imaging Device Using Dynamic Overlay Bars." The Applicant respectfully submits that the Title describes a digital device where overlay bars displayed by the device aid the user in interacting with, and operating, the device; and that therefore, the Title is adequately descriptive.

The Examiner's indication that claims 9-13 are allowed, and that claim 15 would be allowable if rewritten in independent form including all the limitations of the base claim is acknowledged and appreciated. Accordingly, the limitations of canceled claims 8 and 14 have been incorporated into amended claims 9 and 15, respectively.

Attached hereto is a marked-up version of the amendments made to the Specification and Claims.

In view of the foregoing, Applicant's attorney believes that this application is in condition for allowance. Should any unresolved issues remain, Examiner is invited to call Applicant's attorney at the telephone number indicated below.

Respectfully submitted,

  
Stephen Sullivan  
Sawyer Law Group LLP  
Attorney for Applicant(s)
